

A message from OLI and IGGI

What are my teachers doing now to help me grow my Learning Powers?

Every day, my teachers and teaching assistants:

- encourage me to have a growth mindset and praise me for always 'having a go'
- remind me to use my Learning Powers at all times
- praise me for trying my hardest and never giving up
- help me to learn from my mistakes
- make learning fun and exciting
- help me to work well with my learning partner
- tell me what I am going to learn and help me to learn by showing me what to do
- listen to my ideas when planning my learning
- help me to improve my work during lessons
- trust me to make the right choices about my learning
- believe in me

How are my teachers going to help me become an even better learner?

My teachers and teaching assistants:

- involve me in coming up with success criteria for every lesson so I know how to make my work really good
- use the visualiser to show me what really good work looks like
- remind me to only put my hands up to ask a question
- ask me questions to find out what I already know and what I would like to find out
- talk to me more about my work and how I can improve it
- involve me in planning our new topics
- make sure I get to learn with lots of different friends
- help me to talk to my friends about how they can improve their work
- use visualisers for lots of different learning activities
